Summary

Computer Science Engineer and senior student graduating in 2026, with a foundation in software development and testing. ISTQB CTFL v4.0 certified, with hands-on experience in manual, API, and automation testing and training from NTI. Builds web applications with React and the MERN stack.

Skills

- **Domain Skills**: Web Development, AI & Machine Learning, UI/UX & Design, IT & System Skills
- **Technical Skills**: HTML, CSS, JavaScript, PHP, React.js, Node.js, Express.js, MongoDB (MERN Stack), Responsive Design, REST APIs, E-commerce development, Programming languages, MySQL (DML/DDL/DCL), Python, NumPy, Pandas, Scikit-learn, TensorFlow, Deep Learning fundamentals, Data preprocessing, Model training & evaluation, Git, GitHub, CI/CD pipelines, Docker, Linux
- **Soft Skills**: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Time Management, Creativity

Work Experience

Graphic Designer December 2024 - January 2026

Prime Graphic *Sheraton, Cairo*

- Designed social media posts, banners, and marketing materials for various clients.
- Collaborated with marketing teams to develop branding concepts and visual identities.
- Used tools like Adobe Photoshop, Illustrator, and Canva to produce high-quality designs.

IT Help Desk (Call Center) 3 Months

Vodafone Egypt *Zahraa El Maadi, Cairo*

- Provided technical support to customers, resolving hardware, software, and network-related issues.
- Handled customer inquiries efficiently while maintaining high levels of customer satisfaction.
- Diagnosed and troubleshot technical problems, ensuring quick and effective solutions.

Education

New Cairo Academy

Bachelor of Computer Science *September 2022 - August 2026*

Projects

Voltify – E-commerce Web Application

Developed a fully responsive e-commerce platform using React.js. Designed modern UI/UX to enhance user experience and simplify the shopping process. Implemented product browsing, cart management, and user interaction features. Deployed the application using Vercel.

Flowtic App – Business Management System

Built a business management web application to support sales, accounting, HR, and inventory operations. Developed using modern web technologies with a focus on scalability and performance. Designed intuitive dashboards and user interfaces for better data visualization and management.

Graduation Project – DDI System (Drug-Drug Interaction Detection)

Developed an AI-based system to detect potential drug-drug interactions. Applied Machine Learning / Deep Learning techniques for prediction and classification. Performed data preprocessing, feature engineering, and model evaluation using Python libraries. Focused on improving healthcare decision support and patient safety.

Certifications

ISTQB Certified Tester - Foundation Level (CTFL-V4.0), International Software Testing Qualifications Board 29-Dec-2025

Summer Training – Data Analysis & Web Applications, Ministry of Communications & Information TechnologyJul 2025 – Aug 2025

Artificial Intelligence Ambassadors Program, National Telecommunication Institute (NTI) & ESE 2023 2023

Introduction to Artificial Intelligence & Applications, Zewail City of Science and Technology August 2023

Data Analysis Skills for the Freelance Professional, NTI – Digital Egypt Youth Program Sep 2025 – Nov 2025

UI/UX Design Training, NTI & ITIDA Aug 2025 – Sep 2025

Huawei Cloud HCCDA – Tech Essentials (Preparatory Sessions), Huawei Cloud Developer Group (HCDG) & Instant Academy

Computer Network (CCNA), Professionals Training & Consultation
